About Mildmay Mission Hospital

Mildmay is a charitable hospital based in East London. Our hospital provides structured pathways of rehabilitation, treatment, services, and care for people with complex and severe HIV-related health conditions, including HIV-associated brain impairment.

In 2020, Mildmay began the first of our ground-breaking new services for people who are homeless or rough-sleeping and recuperating from illness or injury, providing step-down, rehabilitative healthcare. We also became London's primary COVID-Care Centre for this cohort and for step-down HIV patients.

2022 saw the launch of our REBUILD Pathway, which provides post-detox, stabilisation-based intermediate residential rehabilitation care to patients who are homeless.
